the alternative as a reference.

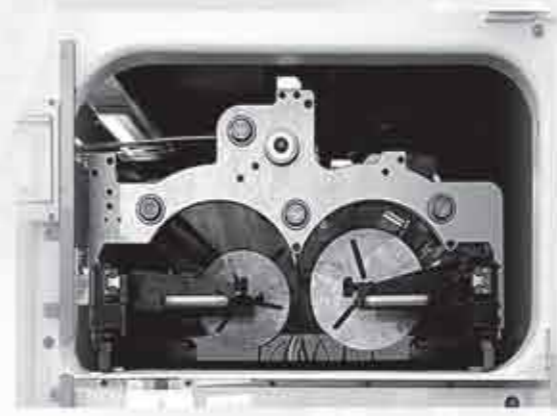

PRIMATECH
CARDBOARD MACHINES IMPORT EXPORT

SB 140 SC

Full automatic hot stamping

SB 140 SC full automatic hot stamping

Technical details

Max paper size	mm 1020x1420
Min paper size	mm 500x700
Max stamping size	mm 990x1390
Max pressure	600 tons.
Processing with paper	min. 80g
Processing with cardboard	max mm 2
Processing with corrugated board	max mm 4
Accuracy of work	mm 0,10
Max speed per hour	4500 sheets/hour
Max power consumption	60 KW
Space required (L x W x H)	mm 7600x5000x2700
Weight	26 tons.

Equipment

- 3 independent engines for foil control
- Foil rewind control
- Sensor for foil break control
- Counter of residual foil
- 2 monitors Touch Screen
- 1 heated honey comb chase with 6/9 independent zones
- Temperature digital control
- Telescopic system, for the replacement of the foil, outside the machine
- Cutting foil device at platen inlet
- Cutting foil device at delivery
- Programmable Air blast Plus
- Pull wheel pneumatic locking device
- Lower steel printing bed with double layer 2,3 mm
- Brushes unit for foil tension
- Automatic printing pressure device
- Special paper device
- Electrical PLC / inverter
- Service online

Optionals

- 2 independent foil rewind control
- Pneumatic feeder table
- Additional heated honeycomb chase
- Table introduction frame
- 6 shafts Rewinder
- Elevation 350 mm
- Press for wasted foil collecting
- Antistatic system
- Tape insert
- Brushes unit powder exhauster
